

Bulletin Article February 5784

It is the middle of winter, but we are keeping things heated here at TERS!

- We had amazing attendance at our Share Shabbat this month and the students made the service so vibrant. Our younger congregants are really beginning to enjoy these Friday night services AND they are making them fun for everyone around them. That makes me so happy!
- Our MLK tribute project about “Our Dreams for Our Community and Our World” is posted in the atrium outside the school wing. I will leave it up until mid-February, because our students were so thoughtful with their responses. Please take a moment to read through them. You’ll be glad you did!
- Thanks to Barbara Senges, our students were able to enjoy a wonderful presentation and activity by The Audubon Society, ALL ABOUT OWLS, for Tu B’Shevat. How very generous of her! If you are a parent, please thank her the next time you see her.
- The students were lucky enough to enjoy special programming by the emissaries this month as well. What a special treat! And,
- The month ended with a Sunday Family Funday at Supercharged!

As you can see, we don’t let winter slow us down here at TERS! Remember to watch the bulletin board in the atrium for exciting programming and activities coming up for the month of February! ...and if you are a parent and you haven’t joined the Remind Community, please ask me about it TODAY! It is important that we are all connected.

Shalom,

Eliza Miriam
